Planning / Requirements-

1. App
2. Customers (Targets)
3. Equipment.
4. Safety
5. Location.

Introduction

The problem: ✓ Laundry services could be more efficient technology-wise.

The opportunity: ✓ Making laundry services easily accessible, transparent and fast for the client
✓ Connecting potential customer to the ideal washing machine.

Value:

- ✓ More order requests for the entrepreneur.
- ✓ Harmonized delivery.
- ✓ Reduced queuing time for clients
- ✓ Improving quality assurance & transparency
(rating, reviews, experience)
- ✓ Premium privileges for VIP clients. (express)

Summary of our base plan:

We are working on the belief that laundry services can always be done safer, faster, better & more efficiently with more engaging geolocation technology. This is what we will tap into.

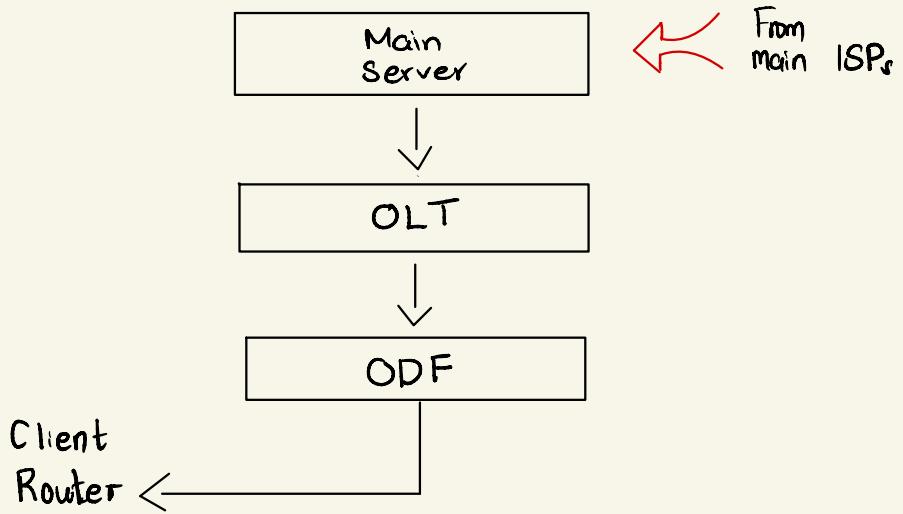

Bringing sanity to the laundry business

Ideas

- 1 Subscription plans- with set services
- 2.

Poverty - the inability to access the cycle of capital.

Building whatever capacity to increase from small beginning that you have

YC School

Should you be a startup founder?

- ✓ Initial motivations don't matter that much.
- ✓ Are you resilient?
- ✓ What do I have to lose?
- ✓ Its not always perfectly linear.
- ✓ Can you live with the worst case?
- ✓ Get your circle right. Find the smart people.
- ✓ Find an equally enthusiastic co-founder, then make the jump.
- ✓ Launch them side projects.

Why you should leave your FAANG job? (Breaking Out of FAANG?)

- ✓ FAANG value?
- ✓ What's the reality of the job?
- ✓ Transferable skills.
- ✓ What's the path to get funded?
- ✓ The retention trap. [Loss aversion]
- ✓ When to get out?
- ✓ The FAANG optimization -
